A number of witnesses was summoned, and the jury were absent for about two boars. On the re-assembling of the Court, Mr Hanness, the presenting attorney, stated, that as a number of the attnesses in the case of Cook, who would not be in the strengess case, were present, he would, if agreeable to the others of Cook first. counsel on the other side, move to take up the case of Cook first.

Thomas C. Green, Faq., one of the counsel for Cook, said, that as coursel, he had not set and time to read the indicatent, and had not yet decided what plea to enter to the charge. He was unable to proceed in the case, and would prefer that the Commonwealth should proceed with the case of Stremess, which would allow them time to prepare for the case of Cook.

The demurrer to the treason count was argued and overruled by the Court.

The Jury were then sworn, and the same questions put to them as in BROWN's case.

Mr. GREEN, for the prisoner, admitted the fact of a conspiracy with the slaves to robel, which was punishable with death or imprisonment for life.

Mr. HUNTER then rose and read the confession of Coor, as written by himself. There were twenty-five fooleoup pages of it. Notbing new was elicited by it, except that he implicates FERD, DOUGLAS, and Dr. Howe, of Boston.

The confession will be published in pamphlet form for the benefit of Samus. C. Young who was wounded at Harper's Ferry.

The public feeling against Coop is stronger than against my of the other prisoners. He is regarded as laving been a spy for the insurrectionists. Strong-efforts will be made by Governor Williams to save his life.

From Washington.

Washington, Nov. 8.—As the chief, if not the only difficulty, in the way of the consummation of the pending treaty between the United States and Mexico, is in relation to the proposed transit routes, several influential parties have submitted to both Governments a basis of compromise. It is, that whichever Government may have forces nearest any scenes of obstruction or disturbance, shal promptly interfere for that purpose—each with the privilege of entering the territory of its neighbor,—and that both, in case of emergency, should at unitedly. The assistance recently afforded by the Mexican troops from Matamoras, to the people of Brownwille, is stated as an example. Such a proposition, however, to be incorporated in the treaty, must come from the Liberal Government. This, it is understood, is favorably regarded by our own.

There is no doubt that both the governments of Great Britain and the United States are decidedly in earnest in presenting their respective positions or convictions of right, in relation to the San Juan question, although not more so than they were in the Oregon question. But the latest foreign official advices do not justify any apprehension of serious difficulties between the two countries.

The Secretary of War, within half an hour thereafter, issued instructions to Captain Ricusarys, commanding the artillery company at Baton Rouge, to place his mea in readiness for a march, and at the same time, the Quarternaster at New Orleans was telegraphed to make arrangements for transporting the troops to Point Isabel, towards which place they are now probably on the way. J. B Thomas, the special de egate from Brownsville, had an interview with the Secretary of War te-day, and fully explained to him the alarming condition of the frontier of the Rio Grande.

A private letter dated El Paso, October 24th, says that the new law of the Juaras, making marriage by the civil sutherities imporative, has created much exceiment in Northern Mexico. The Bennett Divorce Case.

The Bennets Divorce Case.

This now famous case comes up in a new form before the Superior Court of New Haven. It will be remembered that a divorce, with \$4000 alimony, and the cus'ody of two minor children, was granted to Mrs. Bennerr, with a provision that the children should not be removed from the State without the consent of Dr. Bennerr, or the order of the Court. Mrs. Bennerr has petitioned the Court to take the children to Minnesota for the Winter, she having been offered a home in the family of her sister, who is the wife of Judge Coles, of Winona, Minnesota. She also asks an order of the Court to compel Dr. Bennert to assist in the support and education of the children, 2 pretty little girls of 7 and 9 years of age. Dr. Bennert resists these, applications, and asks moreover that the children may be given to him. Mrs. Bennert testified at length as to her care of the children since the divorce, and the way is which she had conducted be and the way in which she had conducted be sent the since the children was in which she had conducted be sent the since the divorce, and the way in which she had conducted be sent to the children was in which she had conducted be sent to the children was in which she had conducted be sent to the children was in which she had conducted be sent to the children which we had conducted be sent to the children was in which she had conducted be sent to the children was in which she had conducted be sent to the children was in which she had conducted be sent to the children was in which she had conducted be sent to the children which was in which she had conducted be sent to the children which she had conducted be sent to the children which we had conducted be sent to the children which she had conducted be sent to the children which she had conducted be sent to the children which she had conducted the children which we had conducted to the children which was in which she had conducted to the children which we have the children which we have the children which we had conducted to

On Tursday, accompanied by his sucks, he visited the recently restored Cathedral of Albano, and assisted at the benediction of the Holy Sarrament, and on the following day set out for Frascati, "where," says the official journal, "he was received with the most entausiastic acclamations of the people," and in all due form by a numerous body of Cardinals. His Holliness after eards walked some time in the sardens of the Villa Taverna, belonging to the Bosomss family, who, together with other porsonages of distinction, were in waiting to receive him. The French ambassador was also present with his family, and it is remarked that the conferences between the last-named individual and the Pope are much more frequent and prolonged than formerly, whence it is inverred that his Holliness's villeggiatura may be productive of beneficial results to the well-are of the Stan, as well as to his personal health.
